

Collect A Category

Name a category and challenge children to collect objects that belong in that category. Categories can be very general, such as vehicles, or more specific, such as vehicles that drive on a road. Repeat the category and the names of the objects as children add to the groups. Encourage children to share words from their home language.

Example of categories:

- ◆ Animals
- ◆ Vehicles
- ◆ Things that write
- ◆ Vegetables
- ◆ Things that grow
- ◆ Tools

Repeat Words Often

“You are collecting *vehicles* that drive on a road. A *vehicle* moves things or people, so what can we get that might be an example of a *vehicle* that drives on a road?”
