

Snip Snip

Provide children with a variety of larger items to cut into smaller pieces. These items can then be used in a sensory table activity or later for an art project.

For example:

- ◆ Straws
- ◆ Yarn
- ◆ Strips of cardstock paper
- ◆ Ribbon
- ◆ Foam sheets

Narrate or Label Fine Motor Skills

“You are cutting that yarn with your thumb up.”

“You are squeezing your fingers and thumb to close your scissors and cut that strip of paper!
You are really working hard.”
