

## Tiny Art

Children can create tiny art masterpieces using small materials (e.g., half or quarter sheets of paper and small tools). You can introduce one small tool at time or offer a variety for children to choose from.

### Examples of Small Painting Tools:

- ◆ Q-tip
- ◆ Craft stick
- ◆ Stick
- ◆ Toothpick
- ◆ Broken crayons

### Encourage Children to Try New Tools or Grips

“I see you are working hard to use your alligator fingers to help hold the Q-Tip while you paint!  
You are making small strokes.”

“You are figuring out that even though the stick is small you can still hold it like your pencil. Nice!”
