

Clean Up Hunt!

Turn cleaning up into a fun game! Look around the room and see what kind of objects need to be cleaned up. Ask children to hunt for different objects to clean up based on different characteristics.

For example:

- ◆ Clean up by colors
- ◆ Clean up by size
- ◆ Clean up by the type of object
- ◆ Clean up by shape

More Support: Clean up items with the children. Narrate the items that you are cleaning up while sorting.

Prompt Children to Sort or Compare Objects by Characteristics

“I see lots of red toys around the room. Who can help me get all of the red toys? Great! Who can help with the yellow toys?”

“I need your help putting the toys in the right place. Can you put all of the cars in a pile? Now, can you put all of the books in another pile?”
