

Clean Up Hunt!

Turn cleaning up into a fun game! Look around the room and see what kind of objects need to be cleaned up. Prompt older infants to sort objects. While cleaning up, label objects based on different characteristics.

For example:

- ◆ Clean up by colors
- ◆ Clean up by size
- ◆ Clean up by the type of object
- ◆ Clean up by shape

More Support: Clean up items with the children. Narrate how you are sorting the items as you put them away.

Label Objects Characteristics

“I see colorful toys! Let's put the red toys here and the blue toys here.”

“Let's put these toys away! Cars here. Balls here. Good job!”
